THE ARCHIVE PROJECT

During 'lockdown' we were unable to continue with our programme of recording the lives of Poles or those with Polish roots in Norfolk. But life has moved on and we are delighted to reveal our latest case study:

Alan Harrison's grand-father, Louis Urbinski, arrived in Norwich in the 1890s. But Alan, now 92, was unaware that he had Polish ancestry until 15 years ago!

POLISH CONVERSATION GROUP

We continued with our Beginners/Intermediate sessions during the pandemic, led by **Tessa Black**. For those wanting to learn or improve their skills in this intriguing language, this is a friendly group which meets twice monthly (and on Zoom in winter months).

A basic knowledge of some vocabulary would be useful and the tutoring can be adjusted to meet your level.
